

# HOW DO YOU GET AROUND?

The City of Goldsboro, lead planning agency for the Goldsboro MPO, is conducting two important planning efforts, with the goal of improving all modes of transportation in the Goldsboro area. The City invites residents to attend the launch of both plans and get involved to improve transportation facilities in your area. Stop by to learn more about the projects and provide input through comment forms and direct markup of maps.

## Goldsboro Bicycle, Pedestrian, and Greenway Master Plan

This planning effort seeks to improve bicycle and pedestrian transportation, recreation, and active living opportunities through improved sidewalks, greenways, and bicycle lanes.

## What is an MPO?

The City of Goldsboro and parts of Wayne County are located within a Metropolitan Planning Organization (MPO) designated area as required by the Federal Government. The Technical Coordinating Committee (TCC) and Transportation Advisory Committee (TAC) are the bodies that make recommendations regarding transportation issues. They have no authority to zone or limit the use of property. They are charged with examining long-range transportation issues facing the MPO for which federal funding is required. The Goldsboro MPO includes Wayne County, the City of Goldsboro, the Village of Walnut Creek, the Town of Pikeville and NCDOT.
